I WANT YOU
TO READ IT'S JUST ANOTHER DAY

<http://itsjustanotherday.thecomicseries.com/>

Nicodemus(aka St. Nic of Detroit) walked the Earth many times over pursuing his craft. Born in 1952 on a US navy base he always knew a different path awaited him than the strict upbringing delivered by his father's military discipline. He started recording music at the young age of seven, mastering many instruments along the way...but that wasn't enough! Seeking that escape he so desired he left home at 13 years old. At sixteen a run in with a few members of the motor cycle club, Satan's Last Revenge, added another title to his growing repertoire...President. His new found title as president and biker of the 1%er club SLR didn't deter him from his music though! He recorded under several aliases with the most prominent being Jim Stonefreak, as part of the three piece band, Spellbound Eclipse. It wasn't until a pit stop in a local mental institution that an ever present vision bestowed upon him the name Nicodemus. Over the course of his 54 year career he released a little over 50 projects including solo works, compilations, and joint releases with his kid brother, Matchez. Even in 1990 when an inoperable brain tumor threatened to end not only his career but his life as well, Nicodemus kept fighting. He fought the tumor for 23 years through various therapy's, a radiation overdose, and herbal practices he learned during his training to become an Apache healer. During that time he took aspiring artists under his wing and rose to a level he cherished: Underground Royalty. He, on more than one occasion, had been quoted as saying, "I'd had enough of being auditioned by record companies and being told that I can't do it this way." That attitude and desire to keep his work uncompromised led him to turn down many major labels throughout his years including Motown during it's rise. Nicodemus remained a true and virtuous entity in the 'quick to sell ones soul' music industry until in 2013 he finally lost his fight to cancer.

In the wake of his passing, Nicodemus's son, BluRaven C. Houvener works daily to keep the legend alive through music releases, talks, and his weekly Webcomic: It's Just another day, where Nic's music serves as the soundtrack and we see Nicodemus(aka St. Nic of Detroit) in a position it's hard to imagine the joint smoking/biker/musician in...Father.
